

Admission Form Industrial Footwear Design

To be able to be admitted into Industrial Footwear Design you have to complete the following steps

Step 1

Activity Complete the application form Dutch Shoe Academy.
Result Your personal details are known to us

Step 2

Activity Complete the attached questionnaire and sent it to us together with your portfolio, as described below
Result Your background and motivation is known to us

To determine your level of creativity, we ask for you to send us a concise portfolio, in print or digitally. The portfolio has to consist of your own work and/or work of others, in support of your inspiration, motivation and goals. It can be work related to shoes, but does not necessarily have to be.

The portfolio has the following requirements:

- Full-colour (if relevant, therefore for pictures and possibly coloured drawings)
- One-sided A4 format
- Minimum 4 to maximum 10 pages
- After the selection process, we will return the portfolios; therefore make sure to mention your name of every page.

Portfolios that do not meet these requirements will not be considered.

Step 3

Activity The teachers of the Industrial Footwear Design course will perform a pre-selection.
Result You will either continue to step 4 or not. You will be notified in writing.

Step 4

Activity You will complete an assignment and have an interview with teachers of IFD.
Result We will know your talent, motivation and perseverance.

Step 5

Actie We will send you the result of your intake in writing.
Resultaat You are either admitted or rejected for the Industrial Footwear Design course.
